

*... And that has made
all of the difference.*

Robert Frost

As far back as one can recollect, our lives have intersected with “**Crosaires**”, Gaelic word for crossroads.

While some experiences had us make life-altering decisions that were joyous in nature; others were rooted in pain and sadness. Yet through the years, it has been these and all of life’s powerful experiences that molded us into the person we are today. Many stories were shared at the crossroads of life, we are ready to share our story, and in time, hope to learn yours too.

At **Crosaires** we are aware that the only constant in life is change. We understand that as we age such changes will again find us standing and facing additional crossroads, sometimes not knowing which path to choose. We will stand by you.

At **Crosaires** we also understand that how one approaches future experiences will determine how they will live out the remainder of their life. Through a person-directed delivery of care approach our goal is to utilize the art of active listening all while honoring the voices and choices of the people who live in this unique residence.

Todd Walter, MSW, owner and administrator of **Crosaires** has more than 19 years of experience in serving older adults and is viewed as a leader in progressive eldercare advocacy projects in the state of Michigan. Todd leads a team of individuals committed in providing high quality, person-directed care in a safe, highly supportive and dignified culture where elders continue to grow thus sustaining meaningful, productive lives.

Definition of an Elder...

An Elder is a person still growing, still a learner, still with potential and whose life continues to have within it promise for, and connection to the future. An elder is still in pursuit of happiness, joy and pleasure, and her and his birthright to these remains intact. Moreover, an Elder is a person who deserves respect and honor and whose work it is to synthesize wisdom from long life experiences and formulate this into a legacy for future generations.

traveled by...*

Crosaires

Where Care and Community Intersect

An Aging in Community Residence

Crosaires is a state licensed private residence which provides home to no more than six (6) individuals who may require any and all assistance with activities of daily living. Ongoing, each individual is carefully assessed in order to determine the amount of care and assistance required all with the goal to maximize one's independence.

Crosaires provides treatment as well as individualized care. Treatment defined as meeting the medical needs of an individual; care defined as exploring any and all opportunities to assist another in continuing to grow throughout the human life cycle.

Crosaires offers additional on-site medical treatment and care assistance from other licensed providers and organizations such as physicians, podiatrist, pharmacist, pharmaceutical, durable medical equipment, and outpatient therapy services.

Continuously growing and sustaining a culture of well-being rich in meaning and purpose through the development of individual and community relationships.

At **Crosaires** we believe that each individual shall live a fully integrated life and if desired be given ample opportunities to remain a vital part of and engaged not only within the residence but within the greater Williamston or community of choice.

At **Crosaires** we remain committed in developing ongoing individual and community relationships and through these relationships, individual tailored experiences will be created filled with meaning and purpose thus enhancing the lives of the individual and those around them.

Honor is a way of expressing the sacred in a human being. Why do we care for the old and frail? Why do we honor them? We do it because we can see through the withered husk of the body. We can see the human spirit still pure, still complete and still beautiful. When we commit ourselves to the work of caring for that person, we honor the true essence of that human being.
